Staff Augmentation Solutions

**VIP can support
your project teams
by augmenting your staff
with qualified,
experienced,
and trained resources.**

Make no mistake:

Using IT resources wisely can "make" or "break" your company. Staff Augmentation is the star of the show, acting as the linchpin to success for enterprises worldwide. VIP's staff augmentation solutions provide a new method for organizing and managing IT needs. Companies utilizing this strategy realized that if managed wisely, Staff Augmentation could yield rich nuggets of insight to help them create additional revenue streams and enhance existing lines of business. Free yourself from the pressures of understaffed projects and consider our staff augmentation solutions.

About VIP

Headquartered in Houston-Texas and serving over 60 customers worldwide, VIP is a full service project management solution provider. Founded in 2001, VIP has been successful in providing best-of-class project management services.

VIP specializes in helping organizations reach their goals by improving their resource and project Portfolio Management capabilities.

Why Choose VIP?

VIP can support your project teams by augmenting your staff with qualified, experienced, and trained resources. We carefully screen, interview, train and test each of the individuals we hire and then match their experience and skill sets with the needs of a client. VIP's benefits include: Timely invoicing, flexibility and cost effectiveness. The key benefit is that we provide resources that are experienced, trained and ready to work.

What is Staff Augmentation?

Staff Augmentation is hiring temporary personnel to augment your staffing needs. By using supplemental staffing, companies can be assured of thoroughly screened and experienced professionals without expensive recruitment and staffing cost. This allows companies to focus on the project at hand, and not the administrative burden of hiring employees.

References, Background Checks and Testing

VIP's staff members are tested to make sure they have the appropriate expertise and knowledge requested by the client.

All references are checked independently and a complete background check is conducted on the each resource assigned to a particular project.
