

Virtual Intelligence Providers, LLC

Virtual Intelligence Providers, LLC is dedicated to helping your company implement and use SAP the way you were promised. VIP's mission is to help companies get SAP up and running quickly. Our consultants have done what you are trying to do. We provide the knowledge and experience needed to make your implementation and business a success.

VIP Consulting Practice

Virtual Intelligence Providers, LLC offers comprehensive planning, resource allocation, implementation and upgrade assistance to companies using SAP in the United States and Latin America. Our consultants experience crosses both process and discrete industries. We can augment your staff with strong, experienced consultants targeted to directly meet your specific requirements.

SAP Functional Expertise

Virtual Intelligence Providers, LLC delivers system configuration and prototyping from professionals with experience and training in all SAP modules, both client-server (R/3) and mainframe (R/2). Our consultants understand SAP's integrated processes. We will work with your organization to analyze your business processes, and help define, configure and implement improved, streamlined processes in SAP to increase productivity, customer service and quality, while reducing costs. We will help your organization take full advantage of SAP's robust functionality to improve your overall efficiency and effectiveness.

SAP Basis Consulting and System Administration

Virtual Intelligence Providers, LLC provides basis level consulting to help you with the "nuts and bolts" of your project. Our basis staff can cover virtually any operating system, hardware and/or database configuration. We can help you install and manage your development, quality assurance and production system environments. Using SAP's correction and transport system, **Virtual Intelligence Providers, LLC** can help you with change management, as well as providing user authorization configuration and system performance tuning.

SAP Technical Resources

Virtual Intelligence Providers, LLC provides experienced ABAP analysts who can help with design and development of interfaces to legacy systems, data conversion programs, custom reports, and functional enhancements and extensions to meet business needs. In addition, **Virtual Intelligence Providers, LLC** has experienced technical resources in specialized SAP areas like workflow, image archiving and EDI. We can help you take advantage of these more advanced SAP processes to further enhance your organization's effectiveness.

Project Leadership

Virtual Intelligence Providers, LLC can provide leadership and project management resources to partner with your management team and ensure that your SAP project stays on track. Our project managers are top professionals with SAP implementation and project management experience. **Virtual Intelligence Providers, LLC** uses SAP's accelerated SAP implementation methodology (ASAP), which is a comprehensive solution to streamlining R/3 projects and delivering faster business results.

Ongoing Support

In response to client requests, **Virtual Intelligence Providers, LLC** now provides post-implementation support. **Virtual Intelligence Providers, LLC** can provide this on-going support on either a full-time, part-time or on-call basis. Post-implementation support can include any combination of basis, technical and/or functional resources, and is designed to augment hotline support from SAP.

**We provide
the knowledge
and experience
needed to
make your
implementation
and business a
success**
