

VIRTUAL INTELLIGENCE PROVIDERS, LLC **VIP e-Learning**

VIP has developed the most sophisticated end-user support solutions for the latest versions of SAP Implementations and other enterprise systems. We blend learning interventions with performance support and knowledge management, to ensure new enterprise system users are successful. We know how to blend synchronous online classrooms and asynchronous web-based training with traditional instructor led training and performance support tools to dramatically reduce end user time to competency and overall training costs.

Training is one key to success of your SAP implementation. Virtual Intelligence Providers, LLC works closely with you to design a highly individualized training program to ensure that you and your company become proficient with your unique SAP installation.
